STOP SMOKE 325 ml

Reference: 02-W50865

Categories: Technical Products, Improvers

Description

Oil additive suitable for reducing smoke due to burning oil. Improves oil viscosity at high temperatures. Covers gaps due to wear of engine components. Improves compression and reduces engine noise. Suitable for petrol, diesel & LPG engines that emit grey/blue smoke due to burning oil. Particularly effective on old, worn engines. One 350 ml bottle covers up to 5 liters of oil. It is used either during the change or in between.
